

Reconditioned catalytic converter VOLVO S60 II 3.0 T6 2011-2016

Product codes:

Reference: REG-VOLVO004

EAN13: -

Product features:

Cartridge material: Metal
Producer: OE
Engine capacity: 3.0
Year of production: 2011-2016
Horsepower: 304 HP
OE number: 36002708
Product type: Regenerated
Engine code: B6304TX
Warranty: 12 months

Product attributes:**Product description:****WITH DEPOSIT**

Purchase without returning the old part - we ship the goods immediately. You can return your old catalytic converter within 30 days of purchase and receive a refund of your deposit. The delivered item must be complete, original, marked with the OE number and must be free of mechanical damage and signs of tampering.

WITHOUT A DEPOSIT

Purchase with passing the old part, we ship the goods after you deliver your old catalytic converter. The delivered part must be complete, original, marked with the OE number and must not have mechanical damage and traces of tampering.

We offer a catalytic converter regeneration service by replacing only the front insert with a new one. If the rear catalytic converter insert is in good condition and does not need to be replaced, it remains intact. The insert used meets emission standards and effectively eliminates the low catalyst efficiency error. The metal core insert is much more durable than the original ceramic one, and the density of 400 cpsi accurately reflects the factory throughput, ensuring optimal engine power.

If the reconditioned catalytic converter has an intact, original rear core, only the front core is replaced — as it is the component responsible for triggering the catalytic converter error. The rear section remains unchanged, provided it is complete and free from mechanical damage. When purchasing with a deposit, the returned old catalytic converter must have the rear core in an undamaged condition — without cracks, missing parts, or any other defects. If the rear core is found to be damaged, the deposit may be reduced or withheld, depending on the extent of the damage.
