**WITHOUT DEPOSIT**

Purchase with return of the old part – the item is shipped after we receive the old catalytic converter. The unit must be complete, original, marked with the OE number, and free from mechanical damage or signs of tampering. We do not accept cash-on-delivery (COD) shipments.

**The catalytic converter regeneration process involves replacing the worn-out core with a new metallic one, restoring full system performance and meeting EURO 6 emission standards. During regeneration, high-quality 600 cpsi metal cores are used, matching the parameters of the original part. Thanks to the applied cores, no error codes appear in the engine control unit. In rare cases, a manual error reset using diagnostic equipment may be necessary, which is a normal procedure after replacing exhaust system components.**
